

the**NightLab**

About the**NightLab**

Atmospheric lighting design is our challenge.

Our fields of operation are:

lighting design for **events**, permanent **lighting installations** and the creation of **visual content**.

For our unique lighting design we use **video projectors**, our self developed and patented **lightmotiv projector** as well as **LED technology** and other lighting technology. We provide selfmade organic chill out visuals for the videoprojectors we install.

the**NightLab** offers unique lighting design, all from one source, with long term experience even in exceptional environments.
