Sauna of the Future

At Toskana Thermal Spa Bad Sulza you can experience that a sauna is more than a wooden cabin. On 1.500sqmm (indoor) and 2.000sqm (outdoor) the sauna idea becomes redefined.

The broad designed sauna park leaves nothing to be desired:
finnish indoor sauna, softsauna, steam bath with starry sky, lektarium, kneipp foot bath, whirlpools, vital bar and a lot of rest areas.

Light installations by the**NightLab** ensure the adequate atmosphere for this venue of recreation. The multimedia highlights of this trendsetting project are the interactive video-installation in the foyer projecting a river onto the floor with motion sensitive fishes, a circular videoscreen indoor and a circular videoprojection onto the floor of the art-sauna.
